Workshop on
ALGEBRAIC COMBINATORICS AND
GRAPH THEORY
Rome, 14-15/09/2020
S.B.A.I. Department, Sapienza Università di Roma

The aim of the workshop is to bring together both experienced and younger researchers to present and discuss new results and possible developments in Algebraic Combinatorics, Graph Theory and related fields.

Topics of interest are (not only limited to):
Association Schemes
Combinatorial Designs
Combinatorial Matrix Theory
Combinatorics of Representation Theory
Enumerative and Extremal Combinatorics
Finite Geometries
Graph Theory

Invited speakers
Eiichi Bannai (Kyushu University)
Francesco Belardo (Federico II University of Naples)
Marco Buratti (University of Perugia)
Tatsuro Ito (Anhui University)
Claudia Malvenuto (Sapienza University of Rome)
Akihiro Munemasa (Tohoku University)
Primož Potočnik (University of Ljubljana)
Hajime Tanaka (Tohoku University)
Wolfgang Woess (T.U. Graz), TBC
Yaokun Wu (Shangai Jiao Tong University)

Organizing Committee
F. Scarabotti (Sapienza University of Rome)
A. Donno (Niccolò Cusano University of Rome)
D. D’Angeli (Niccolò Cusano University of Rome)
M. Cavaleri (Niccolò Cusano University of Rome)

Info and Registration: matteo.cavaleri@unicusano.it
